Introduction to the Course

B2B Marketing goes by many names – Industrial Marketing, Business Marketing, etc. Simply defined, it is the marketing of goods and services by one business to another. The term “Business” includes manufacturing companies, government undertakings, private sector organizations, educational institutions, distributors, dealers, etc.

The marketing of products and services to businesses is a major component of the marketing activity in any economy. This course explores the marketplace in which this activity takes place. It covers an understanding of the unique nature of the business customers' needs, and the complexities of developing an effective marketing strategy. It covers organizational buying behavior, and the unique characteristics of the B2B customer. In the process, it will help develop strategies and presentations to market products and services to this customer.

Course Learning Objectives

At the end of the course, students should be able to

Pedagogy/Teaching Method:

The course will have a judicious mix of lectures, storytelling, experiential exercises, and cases. Here the onus of learning will be with the student, and the instructor will be a facilitator. Instead of learning 'what to do', the cases will also be used as examples of real-world phenomena where issues arise, and good and bad practices are seen. The key to learning this way is to see many examples and situations and learn inductive as well as deductive ways from students' and managers' different experiences.

Textbook / Other Readings

We have one reference textbook for this course. And, a set of useful readings, cases and exercises have carefully been chosen for you. More books and reading material will be communicated in class.

Disability Support

JGU endeavours to make all its courses accessible to students. The Disability Support Committee (DSC) has identified conditions that could hinder a student's overall well-being. These include physical and mobility related difficulties, visual impairment, hearing impairment, mental health conditions and intellectual/learning difficulties e.g., dyslexia and dyscalculia. Students with any known disability needing academic and other support are required to register with the Disability Support Committee (DSC) by following the procedure specified at <https://jgu.edu.in/disability-support-committee/>

Students who need support may register any time during the semester up until a month before the end semester exam begins. Those students who wish to continue receiving support from the previous semester, must re-register within the first month of a semester. Last minute registrations and support might not be possible as sufficient time is required to make the arrangements for support.

The DSC maintains strict confidentiality about the identity of the student and the nature of their disability and the same is requested from faculty members and staff as well. The DSC takes a strong stance against in-class and out-of-class references made about a student's disability without their consent and disrespectful comments referring to a student's disability.

All general queries are to be addressed to disabilitysupportcommittee@jgu.edu.in

Disclaimer: This course outline including assessments, sessions and/or readings may be revised during the semester if such need arises.
